Bright, well-proportioned living spaces provide the opportunity to stamp your personal taste and style to create the home that perfectly suits you. A high specification includes durable wood effect flooring, generous downlighting, underfloor heating, and your own private balcony or terrace.

Kitchens are contemporary and chic, perfectly blending form and function. Reflecting Montreaux's commitment to excellence, exclusive quartz worktops, upstands, and splashbacks are meticulously sourced to complement the stylish UK built cabinetry. Superior Siemens integrated appliances complete the distinctive look and feel.

- LED lighting to terrace/balconies
- Streetlighting
- Secure cycle storage

### ACCESSIBILITY

- Dedicated, paved walking paths
- Tarmac roadways with permeable block paving drives
- Level access through front doors and garden doors
- Wheelchair accessible WCs

### CLIMATE CONTROL

- High levels of thermal insulation
- Mechanical extract ventilation system
- Thermal-efficient double-glazed windows
- Thermostatic controls for wet system

### WATER

- Energy efficient hot water cylinders
- Water efficient taps and toilets

### RENEWABLES

- Porotherm block construction for recyclable construction waste and higher thermodynamic performance
- Air source heat pumps for heating

# St Albans

## A great place to call home

Viciniti is situated in Fleetville, one of St Albans' thriving residential areas and has access to the Alban Way, a cycle and walking route linking with the city centre. Rich in history, the city has become a desirable place for a rewarding lifestyle, with its fabulous mix of arts and culture, acres of green open spaces, outstanding schools, and first-class amenities.

St Albans is characterised by glorious architecture, from the Roman walls, the clock tower and cathedral to picturesque medieval streets. But there's more than just history here – this is a vibrant city with a fabulous selection of independent retailers, familiar high street names, a twice weekly market that's operated since the mid 1500s, and some great restaurants with offerings from all corners of the globe.

With reputedly more pubs per head than anywhere else in the country you'll be spoilt for choice. Ye Olde Fighting Cocks claims to be the country's oldest, and in Fleetville, the Rats Castle has a strong games tradition and refuses to be gentrified, while The Crown offers Sunday roasts, quizzes and craft beers. As an alternative to city centre dining, restaurants in Fleetville include Oasis Mediterranean, Nonno's Italian and Souvlaki City Greek Restaurant.

For the weekly shop, there's a large supermarket just half a mile away, complemented by independent retailers and coffee shops on Hatfield Road.

One of the greatest attractions for families is the exceptional quality of schools for all age groups, with twenty-eight rated 'Outstanding' by OFSTED, including Fleetville Nursery and Junior schools, only half a mile from Viciniti.

The city offers fantastic transport links. Situated within 20 miles of central London you can be in Kings Cross / St Pancras in just 25 minutes with trains every 15 minutes from St Albans City station, less than 1 mile from Viciniti. By road you'll enjoy easy access to Luton and Heathrow airports (12 and 25 miles respectively), the M1, A1(M) and M25 motorways.

# Sustainability at the heart of Viciniti

We have included a variety of features to reduce environmental impact and make it easier for you to live a healthy, sustainable lifestyle.

Green living and sustainable development is top of our agenda. As a company, we are committed to reducing energy, water, and waste on our construction sites, in our offices, and in the homes that we build.

### 1. ENERGY EFFICIENCY

Our highly energy-efficient homes, utilising renewable energy sources for fully electric heating and hot water systems, will lower energy consumption, reduce carbon emissions, and improve local air quality.

### 4. NEW TECHNOLOGY

We incorporate new sustainability technologies into our homes wherever we can. These may include Porotherm block construction for exceptional thermodynamic performance, photovoltaic solar panels where appropriate, air source heat pumps, energy-efficient and smart-phone programmable electric radiator panels, and mechanical extract ventilation systems. The mix of solutions we use is tailored to the architecture and site features.

### 2. REDUCING WATER USE

Water-efficient fixtures and fittings include water-efficient taps, showers, and dual flush toilets along with water-efficient white goods.

### 5. REDUCING WASTE

Our development has been designed to reduce waste and preserve materials during the build process, with a target of diverting 95% of our waste away from landfill sites.

### 3. ENHANCING ECOLOGY

The landscaped gardens will provide an open space for new trees and plant species offering habitats for many invertebrates, small mammals, and birds. The landscaping has been designed to provide a net biodiversity gain, ensuring the development enhances the ecological value of the site.

### 6. SUSTAINABLE TRAVEL

The development encourages residents to use more environmentally friendly modes of transport with the provision of secure cycle storage and electric vehicle charging points.

## The Montreaux Difference

We design homes with heart, based on a deep understanding of how people and communities wish to live their lives today, tomorrow, and in the future. Our approach is distinctive and different, treating every project as a new adventure, starting with how we can improve living environments to create a better sense of place. We strive to continually innovate our developments and designs, encouraging and supporting our teams across the business to be the very best versions of themselves. In this way we ensure the people who live, work, and play in our indoor and outdoor spaces can share an adventure that becomes a journey of a lifetime.
